

LIST OF TALKS UP TO OCTOBER 2011

CAUCHER BIRKAR

- (1) Cambridge, birational geometry day, *Itaka conjecture over abelian varieties*, October 2011.
- (2) Kyoto University, Japan, algebraic geometry conference in honour of Mori, *Existence of log canonical flips and a special LMMP*, June 2011.
- (3) Rennes University, France, algebraic geometry seminar, *Divisorial algebras and modules*, April 2011.
- (4) University of Paris VI, France, algebraic geometry seminar, *Divisorial algebras and modules*, January 2011.
- (5) National Center for Theoretical Sciences, Taipei, miniworkshop on birational geometry, *Minimal models and Zariski decompositions*, December 2010.
- (6) Lille University, France, algebraic geometry seminar, *Zariski decomposition and minimal models*, November 2010.
- (7) Hyderabad University, India, ICM 2010 algebraic geometry satellite conference, *From nonvanishing to minimal models*, August 2010.
- (8) Oberwolfach Mathematics Institute, Germany, workshop on complex geometry, *On the Zariski decomposition problem*, September 2009.
- (9) Research Institute for Mathematical Sciences, University of Kyoto, Japan, workshop on the abundance conjecture, *Existence of minimal models III*, September 2009.
- (10) Research Institute for Mathematical Sciences, University of Kyoto, Japan, workshop on the abundance conjecture, *Existence of minimal models II*, September 2009.
- (11) Research Institute for Mathematical Sciences, University of Kyoto, Japan, workshop on the abundance conjecture, *Existence of minimal models I*, September 2009.
- (12) Steklov Institute, Russia, conference on geometry of algebraic varieties, in memory of V.A. Iskovskikh, *On the Zariski decomposition*, 2 July 2009.

Date: October 2011.

- (13) Imperial College, the London topology and geometry seminar, *The Iitaka conjecture $C_{n,m}$ in dimension 6*, 22 May 2009.
- (14) Netherlands, conference on classification of algebraic varieties, *Existence of some minimal models III*, 13 May 2009.
- (15) Netherlands, conference on classification of algebraic varieties, *Existence of some minimal models I*, 12 May 2009.
- (16) Cambridge University, UK, algebraic geometry seminar, *The Zariski decomposition problem*, 6 May 2009.
- (17) KAIST, Korea, algebraic geometry workshop, *The Iitaka conjecture in dimension 6*, 9 April 2009.
- (18) Postech University, Korea, math colloquium, *Birational geometry*, 3 April 2009.
- (19) Postech University, Korea, workshop for birationalists, *Minimal models in dimension 4*, 3 April 2009.
- (20) Strasbourg University, France, algebraic geometry seminar, *Minimal models in dimension 4*, 26 March 2009.
- (21) Tokyo University, Japan, conference on birational geometry, *Boundedness vs thresholds and flips*, December 2008.
- (22) Durham University, UK, pure math colloquium, *Classification of Complex Algebraic Varieties*, 10 November 2008.
- (23) International Centre for Mathematical Sciences, Edinburgh, UK, conference on higher dimensional algebraic geometry, *Boundedness vs thresholds and flips*, September 2008.
- (24) Park City Mathematics Institute, USA, summer school on algebraic and analytic geometry, *The minimal model conjecture*, July 2008.
- (25) Nottingham University, UK, number theory seminar, *Birational geometry in dimension 4*, 25 April 2008.
- (26) Bristol University, UK, algebra and geometry seminar, *Classification of algebraic varieties*, 20 February 2008.
- (27) Warwick University, UK, workshop on higher dimensional minimal model program, *4-dimensional minimal models*, December 2007.
- (28) Edinburgh University, UK, geometry seminar, *Minimal model program and moduli spaces*, 1 Nov 2007.
- (29) Warwick University, UK, workshop on higher dimensional minimal model program, *HD MMP and termination III*, September 2007.
- (30) Warwick University, UK, workshop on higher dimensional minimal model program, *HD MMP and termination II*, September 2007.

- (31) Warwick University, UK, workshop on higher dimensional minimal model program, *HD MMP and termination I*, September 2007.
- (32) University of Hokkaido, Japan, conference on algebraic and arithmetic structures of moduli spaces, *Minimal model program and moduli spaces*, September 2007.
- (33) National Center for Theoretical Sciences, Taiwan, *Existence of minimal models*, July 2007.
- (34) National Center for Theoretical Sciences, Taiwan, *Existence of minimal models and flips*, July 2007.
- (35) National Center for Theoretical Sciences, Taiwan, *Existence of minimal models in dimension 4*, July 2007.
- (36) National Center for Theoretical Sciences, Taiwan, *Mld's, thresholds and termination of flips*, July 2007.
- (37) Annual mathematics meeting, Thailand, *birational algebraic geometry*, May 2007.
- (38) University of Tokyo, Japan, *Singularities and termination of flips*, March 2007.
- (39) University of Tokyo, Japan, *On boundedness of log Fano varieties*, March 2007.
- (40) University of Tokyo, Japan, *Existence of minimal models and flips*, March 2007.
- (41) Research Institute for Mathematical Sciences, University of Kyoto, Japan, *Existence of minimal models and flips*, March 2007.
- (42) Imperial College, UK, *Existence of minimal models and finite generation*, Feb 2007.
- (43) Liverpool University, UK, algebraic geometry and arithmetic seminar, *Finite generation of the canonical ring of smooth projective varieties*, 21 November 2006.
- (44) Cambridge University, UK, geometry seminar, *On existence of minimal models and flips*, 25 October 2006.
- (45) Cambridge University, UK, Cambridge-Oxford-Warwick algebraic geometry seminar, *Recent progress in the minimal model program*, 19 October 2006.
- (46) Nottingham University, UK, number theory seminar, *Existence of minimal models and flips*, 7 September 2006.
- (47) Cambridge University, UK, geometry seminar, *Singularities and flips*, 14 June 2006.
- (48) Oxford University, Cambridge-Oxford-Warwick algebraic geometry seminar, *Minimal log discrepancies vs every thing else*, 6 June 2006.

- (49) Johns Hopkins University, USA, JAMI conference, *Mld's vs thresholds and flips*, 16 March 2006.
- (50) Warwick University, UK, singularity day, *Singularities in birational geometry*, 26 January 2006.
- (51) Edinburgh University, UK, geometry seminar, *Singularities in the minimal model programme*, 3 November 2005.
- (52) Steklov Institute (Moscow), Russia, Shafarevich seminar, *Boundness of Fano varieties*, 6 July 2005.
- (53) Liverpool University, UK, colloquium, *Recent developments in the minimal model programme*, 15 April 2005.
- (54) Liverpool University, UK, algebraic geometry seminar, *The theory of complements*, 14 April 2005.
- (55) Warwick University, UK, algebraic geometry seminar, *The theory of complements*, 9 February 2005.
- (56) Warwick University, UK, algebraic geometry seminar, *Log termination conjecture: Shokurov programme*, 2 February 2005.
- (57) Nottingham University, UK, number theory and algebraic geometry day, *Termination in minimal model programme*, 1 May 2004.
- (58) Johns Hopkins University, USA, algebraic and complex geometry seminar, *Nonstandard algebraic geometry*, 15 April 2003.
- (59) Warwick University, UK, Warwick teach-in on 3-folds, *Nonstandard algebraic geometry*, January 2002.
