Essays and Talks
geared to the Part III Essay

Imre Leader and Julia Goedecke
Graduate Education Officer, DPMMS

12 October 2016, Wednesday Part III talks
First Part

Prof. Leader will tell you

- how to choose an essay topic;
- how it all works;
- why you should do an essay;
- what you can expect from your essay setters.
Main Points

There will be Wed Talks helping you with

- reading papers (23 Nov),
- preparing an outline (9 Nov),
- getting from an outline to the essay (1 Feb).
Why should you go to “How to prepare a talk”?

We will cover

- how to pick a focus for a talk
  → essay needs a focus (or maybe two);
- how to arrive at an outline
  → essay needs an outline;
- how to explore how best to explain something
  → essay needs well-structured explanations.

Good to practice on something you know

- Essay: all new and complex material.
- Why not practice the first steps on something you know?
- Practice making an outline, and explaining maths.
Why should you consider giving a talk?

Theoretical Physicists

- Exam in January: can use Mich Seminars to revise.
- Get together with some friends, divide up some topics.
- Prepare talks and go to each others talks.
- You’ll know your talk topic very well, and can learn from other talks.

Everyone

- Still good revision of Michaelmas courses.
- Can learn some interesting maths from your peers.
- Can invite a lecturer if you need reference e.g. for US PhD.
- Giving good talks is very important life skill.
- This is excellent opportunity to practice.
Most people don’t need convincing of this

- Learn some tips about reading maths papers.
- Learn some tips about mathematical writing.
Main Points

You should go to the Part III talks helping you with
- reading papers (23 Nov),
- preparing an outline (9 Nov),
- getting from an outline to the essay (1 Feb).
See you at the future Wednesday Part III talks!!
